NOT DESIRABLE IMMIGRANTS Representative Chipman hailed this reaty as one step in the right direction. He said that he welcomed all immigrants to the United States who desired to become good American citizens, but they should out an immediate stop on the hordes that ome here with no other intention than to take as much money out of the country as possible after ruining American labor. Mr. O'Neill, of Missouri, said that passng laws was next to useless unless there was public opinion enough to back them up and enforce them, and this referred esecially to California. In answer to a remark made by Bynum that no bill to restrict Chinese immigration was ever introduced by Republicans, Representative Dingley of Maine called his attention to the bill on this subject offered by Representative Page of California in the session of '79-80, and on which the Demo-

ITS WEAK FEATURES. Mr. Felton said he introduced bills to preent paupers, thieves and the slums of Chinese bill. The treaty was objectionable to him because it allowed Chinese merthants and pleasure-seekers to object to see the seekers to object to object to seekers to object to object to object to object to ob chants and pleasure-seekers to enter into the country who would be soon lost sight of, but he would offer no obstructions on that account. Speeches will be made during the week by Chandler in favor of the resolution to investigate the Louisiana election cases, and by Wilson of Iowa on the Jackson, Mississippi, election riots, and by a number of others on the latter resolution.

The House will to-morrow resume consideration of the anti-Chinese bill, upon which a vote will probably be reached be-fore adjournment. On Tuesday the House will take up the conference report on the army bill and the general deficiency bill, the latter of which has the right of way as unfinished business. About Thursday the conference report on the naval appropria-tion bill will be reached.

Friday and Saturday are likely to be consumed in a renewal of the fight to get a day set aside for the consideration of general pension legislation. There is some talk among the Democrats to-day of allowing this matter to come up this time while there is no quorum in town, becaus there is no danger of the bill being passed, as a single objection would kill it. This the Democrats now say would relieve them of the charge the Republicans are making that they are afraid to have this matter come up, for fear of being placed on record against it, as they undoubtedly would vote J. H. Rowell, of Bloomington, and Julius against its passage.

Train Robbers. RAWLINS (Wy. T.), August 18th .- At 2:35 his morning, while the east-bound Union Pacific passenger train was lying at the water tank two miles from Dana, and the engineer was oiling up and the fireman on the tender filling the tank, sud-denly three men rushed up, covering them with revolvers, and ordered them to throw up their hands. The engineer did so at once, but the fireman jumped down from the tender, and as he did so was slightly shot in the right arm. A constant fire was kept upon the train by some robbers concealed in the darkness fifty yards away.

The front brakeman, William Tillman, when told to hold up his hands, did so. As he lifted his hands higher his lantern dropped, when he was ordered to pick it up again. He stooped down to do so, and

at the same time grasped a lump of coal and smashed the robber in the face, staggering him backwards, and then jumped A desperate hand-to-hand conflict took place, both men rolling down a cinder bank into the track ditch. The brakeman was finally shot in the arm and through the hip, splintering the bone. When the robbers found they were foiled they abandoned the attack and fled. The passengers were uninjured. STILL CIRCULATING THE FALSEHOOD. structure when it is shown that it is reared upon a foundation of untruth. The Democracy continues to exert itself to array workingmen against General Harrison. Despite the fact that the mendacity of the charge that he is the enemy of labor has been over and again exposed, the lie is still repeated. All activity by General Harrison relative to labor troubles redounds to his credit and everlasting honor. Nevertheless, Assembly No. 196 Knights of Labor has furnished the Democracy with a campaign document that it is industriously circulating and nowhere more freely than in California and in Sacramento, in the hope to embitter labor elements against the candidate. But the one as it is thrown into the hands of toilers:

solitary foundation of the document is untruth. Here it is, italics and all precisely Benjamin Harrison was one of the most con call upon the Federal authorities to have United States troops to be sent to this city, although Hon. James D. Williams, at that time Governor of the State, and Hon. John Caven, at that time Mayor of the city, both declared that there was no necessity for such proceeding. Being unsuccessful in having the militia called out, Hon. Benjamin Harrison erganized and commanded a company of volunteers of men of his class, and was instrumental in having two companies of United States troops ordered to this city and quartered at the United States arsenal.

Let us see how the truth puts a lie to flight, and thought it has been before given in these columns, it is well to repeat it, and nail the lie every time it is reasserted Did General Harrison endeavor to have the militia shoot down the strikers? The morning papers of that time, regardless of politics, and when it could not be foreseen that General Harrison would be a candidate, stated that he said, when urged to the policy of an attack upon the strikers: "I don't propose to go out and shoot down my neighbors unless it is positively necessary to do so in order to uphold the law." [See files of the Journal, Sentinel and other Indianapolis papers, Democratic and Republican, of

and Mayor Caven (Democrat) condempreserving the peace. Let us see. Governor Williams issued a long proclamation, of which the following it an extract: Many disaffected employes of railroad companies doing business in this Etate have renounced their employment because of alleged grievances, and have conspired to enforce their demands by detaining trains of their late employers, seizing and controlling their property, intimidating their managers, prohibiting by violence their attempts to conduct their business and driving away passengers and fright ness, and driving away passengers and freight offered for transportation, the peace of the community is seriously disturbed by these law-less acts. Every class of society is made to suffer. The comfort and happiness of many families not parties to the grippings of many families not parties to the grippings. lies not parties to the grievance are sacrificed. A controversy which belongs to our Courts, or to the province of peaceful arbitration or negotiation, is made the excuse for an obstruction of trade and travel over the chartered commercial highways of our State. The commerce of the entire country is interfered with, and the reputation of our community is threatened with six entire country is interfered with, and the reputation of our community is threatened with dishonor among our neighbors. This disregard of law and the rights and privileges of our citizens and those of sister States cannot be tolerated. The machinery provided by law for the adjustment of private grievances must be used as the only resort against debtors, individual or corporate. The process of civil ramedies, as well as the penalties of the criminal code, must be executed equally in each case. To the end that the existing combination be dissolved and destroyed in its lawless form, I invoke the aid of all the lawthe existing combination be dissolved and destroyed in its lawless form, I invoke the aid of all the law-abiding citizens of our State. I ask that they denounce and condemn this infraction of public order, and endeavor to dissuade these offenders against the place and dignity of our State from further acts of fewleaves.

Governor Williams then called out the troops, and sent for General Harrison and valid. solicited him to take charge of the whole body. General Harrison declined, because he had accepted a Captaincy of one of the companies. Therefore Governor Williams commissioned General McCauley (Democrat) to command, and General Mc-Cauley ordered General Harrison's company to aid the United States regulars at The Facramento Military Keep Up Its the United States arsenal in standing guard over the arms and ammunition there stored. The meeting of citizens out of which ultimately grew the resolution to petition the Governor to authorize a call for volunteer troops to preserve the peace, was called by Mayor Caven, presided over by United States Senator J. E. McDonald (Democrats), and the chief speaker was Franklin Landers, afterwards Democratic candidate for Governor. At that meeting a mediation committee was named, with Landers as Chairman and General Harrison, Albert G. Porter, Dr. P. H. Jameson, Hiram B. McCune, Dr. W. C. Thompson, Governor Williams, ex-Governor Parker, Mayor Caven, Colonel B. C. Shaw, T. D. Kingan, John R. Elder, General T. A. Morris, General R. S. Foster, and A. T. Sinker as members. It was instructed to do all it could to bring about a peaceful settlement by kindly advice and urgency.

When the committee met the employers and employes by agreement, General Harrison was present, and the Indianapolis papers of the next morning said of him in

their reports:

General Harrison made an eloquent and logical speech of some length, replete with legal lore and sound good sense. He counseled obedience to the law, but at the same time strongly expressed the opinion that the wages as stated were too low, and desired very much that they should be raised. He was willing to use his influence with those in authority in favor of this desired in rease.

Mediation failing, Mayor Caven called a second meeting, at which General Coburn presided, when a committee was formed,

\$44,,301,500 Sale of Lands in Capay Valley.

A special sale of fruit lands was made a few days ago by the Capay Valley Land Company to a number of the leading fruitgrowers of Vacaville. Among them was F. J. Brassford, James Brassford, H. Win-chell, H. Heilbron and C. Bradley. In stated, and appointed their commander as stated, But there never was a conflict, not a shot fired nor a blow struck, and no man's right infringed.

When the strike ended two hundeed of the participants were arrested, convicted and sentenced each to ninety days' imprisonement.

Now what action did General Harrison take? The morning gapers of that date show that the record mus in this wise:

General Harrison went to Judge Drummond and sked for their release, saying that the abject of prosecuting them had plainly been to show them that they must obey the law like would be law-abiding citizens in the future, their repeated in the successful elected in the strikes, only the law like would be law-abiding citizens in the future, the record made at the time. Ranlett, of the Altas, played a pretty game at second, and Managan's daring base-running were among the features of the game. The following is the score: into something else. The vineyardist must not look after the present alone, but prepare for the future.

IN LIVERMORE VALLEY, Where he is largely interested in vine-growing, one half of the crop is withdrawn from the wineries. The price of wine is ow all over the United States, and the Calthink. He felt very bad over the action you had taken, and feels disposed to let the grapes alone. He says he would like to ell his outfit to you and let the premises be run on the co-operative plan. The product to-day loaded on cars in San Francisco sells for 26 cents per gallon, coopgallon net. Grapes this season, owing to roll off a log. The Frenchman was born the immense quantities of wine on hand, are worth but little. The cellars in San Francisco are so full that they cannot take any more wine. If 200,000 gallons of marmy more wine. If 200,000 gallons of mar-tetable wine was taken into San Francisco is that wine you say can be bought for fifo-day and offered for 8 cents a gailon they could not buy it. Those who are buying are those who ship in large quantities, and they, of course, are those that sell at the west prices. You must remember that ther sections are raising more grapes than ou are. Other sections have with-drawn from the wine markets and their rop will be dried. St. Helena, Calistoga and Santa Clara are drying their crops. Nearly the entire crop of Fresno county will be dried. Last season 50 carloads of dried grapes went East from Fresno and they sold on an average of 3½ cents per pound or \$70 per ton, which was equal to \$17 per ton for the green fruit. The market for dried grapes will be better this season. If necessary, we can

GO TO THE EUROPEAN MARKET. In France we can get from 3½ to 5 cents per G. A. McDonell.. pound and the import duty of half a cer will still leave us on an average say \$17 ton for the green fruit. It seems to m that a large proportion under the existing circumstances should be dried this season If you put up wineries do so with a view selling the wine immediately or holding it over. There is no trouble in disposing of your muscats at \$30 per ton or you tokays at \$50 for table use and raisin mak

Mr. Wheeler recommended the graftin f wine into table grapes. "We will have nis same trouble to go over every year The wine makers cannot pay us the price for the next two years that will pay you for raising the grapes. We should cooperate all over the State another year sa to have a limited supply for wine, and then we would raise the value of the article? He said he had more faith in the e." He said he had more faith in the tillery than in the wine prices at the There was but little trouble and e bense attached to distilling. The large sale of brandy made in the State was ma for 35 cents a gallon, which was equal \$8 per ton for the grapes. THE SECOND LARGEST VINEYARD

In the State, the Nadeau, in Los Angeles ounty, all Mission grapes, sold its entire crop this season and the use of the distil-lery thrown in for \$9 per ton. All of the large ineyards in the State are going into th randy business. Choice grapes sell well to-day and have always. Cabernet wine sells for 75 cents in Bordeaux. Two weeks ally 600,000,000 gallons of beer. Ordinary wines will not stand transportation in the Eastern market. Beer finds a market at ome, and every town has its brewery ficient to spoil our Eastern market. If the can give us \$17 a ton they pay a small freightage and can undersell us in the Eastern market. We will then compete in the market only for fine wines, for the best qualities cannot be made from dried grapes or glucose. It will have the effect, however, of causing the wineries east to make better wines than they have in the past, for

DEALERS THEMSELVES ARE TO BLAME Hugh Riley was also admitted to the County Hospital yesterday. He stole a put the article to twenty cents another ride on a freight train from Oakland to would cut under that price to secure the would cut under that price to secure the trade, and this cutting of prices has ruined the business. Good wines the dealers are handling at a profit, and prices are held up according to quality. Don't look to the selling of your grapes at good prices this year and expect to get good ones next year. The cellars at St. Helena, Sonoma and Santa Clara are full and cannot be marketed at any price. The increased consumption last over that of the preceding year was 2,000,000 gallons, and at that rate of increase in two years more we will be able to realize fair prices for our crops. We can make expenses at \$15 a ton for grapes can make expenses can make expens face the music. If we could get Congress to pass a stringent law punishing for the adulteration of wines the consumption of adulteration of wines the consumption of the product of our wineries would be doubled and trebled. There is a winery in Toledo that runs the year round and large quantities of wine are made without grape juice entering into their composition. There are bills for the protection of wine now pending before Contests but they meet with strong opposition.

Sold them for 3½ cents a pound in San Francisco. This netted me over \$17 a ton for my green fruit.

Mr. Wheeler, in referring to some of the remarks made by Mr. Routier, said: "While you may not credit me with the best of motives in the advice I have given, the experience of the next year will bear moons."

ANOTHER VIEW OF THE CASE. Joseph Routier, one of the pioneer vine-Found Dead.

Coroner Clark received a message from Thomas Kiernan, of Rio Vista, yesterday, which said: "Man found dead in a scow opposite Rio Vista, in Sacramento county."

Deputy Coroner George Clark has gone of the wine grape growers, to give us such advice, I then say, God save as from our friends. If these men who have grown to be millionaires from the result of our unrequited labors have their cellars full of when she was a trouble in getting from three to three and a half cents for your dried grapes. One vineyardist has already sold this season's crop for 3½ cents and it will all be shipped to Montana. Nearly all the Fresno growers are drying them. When we could get \$18 to \$30 a ton for wine grapes it would not then pay to dry them unless 5 or 6 cents per pound could be obtained for

FAILSN GREATNESS. Sullivan Has to Come Down to Punching Second-class Men.

Copyright, 1888, by the California Associated Press.) Boston, August 19th.—Less than three hundred people attended the exhibition at the Nantasket Rink last night, compli mentary to John L. Sullivan. John was faintly cheered on his appearance. He looked well, but fat. In his bout with Joe Lannon he displayed all his old-time agility, landing on Lannon whenever he chose. The programme called for four rounds. John puffed audibly at the end of the third round, and the master of ceremonies pronounced the show ended.

A Warning.

The modes of death's approach are various, and statistics show conclusively that nore persons die from diseases of the throat and lungs than any other. It i probable that everyone, without exception, receives vast numbers of tubercle germs into the system, and where these germs fall upon suitable soil they start into life and develop, at first slowly, and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs, producing consumption, and to the head, causing catarrh. Now all this is dangerous, and it allowed to proceed will in time cause death At the onset you must act with promptiness; allowing a cold to go without atten tion is dangerous, and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils It will give you immediate relief.
